NUTRITION REHABILITATION CENTERS (NRC) ONLINE NEW MODULE DEVELOPED AND INTEGRATED

https://indiancst.com/India/universalhealthcare

NRC - Online New Module Developed and Integrated

Nutrition Rehabilitation Centres- NRCs - The Centres of Life

Objective :

To Monitoring Severe Acute Malnutrition (SAM) are admitted and managed

NRC - Online New Module Developed and Integrated

Nutrition Rehabilitation Centres- NRCs - The Centres of Life

Nutrition Rehabilitation Centre (NRC) is a a health facility where children with Severe Acute Malnutrition (SAM) are admitted and managed. A steady linkage with ICDS identifies and refers severely malnourished children in the community using MUAC tape. Children are admitted in NRC as per the defined admission criteria adopted in line with IAP 2006 and new WHO 2009 recommendations and provided with medical and nutritional therapeutic care.

Once discharged from the NRC, the child continues to be in the Nutrition Rehabilitation program till she/he attains the defined discharge criteria from the program. In addition to curative care special focus is given on timely, adequate and appropriate feeding for children; and on improving the skills of mothers and caregivers on complete age appropriate caring and feeding practices. In addition, efforts are made to build the capacity of mothers/caregivers through counselling and support to identify the nutrition and health problems in their child.
